

I think the sale of Rainbow 1 and the pending sale/transfer of Licenses and Authorizations held by Rainbow DBS Company LLC to EchoStar Satellite LLC is not in the public interest. I think this is a violation of the Taft-Hartley and Sherman Anti-trust laws.

We need competition in the DBS satellite tv market. Voom is providing HDTV to customers. Dish Network is not. Dish Network has been promising to provide HDTV to customers for a couple of years and has not delivered to date. Voom is providing HDTV to customers now. Direct TV is not providing this service either.

Selling Rainbow one and the licenses to Echostar/Dish Network is not in the Public interest.
